## About TradeAID Integrated

TradeAID Integrated is an NGO) and Alternative trade organization which operates in Northern Ghana. The organization has been working to support the Bolgatanga Basket Weavers since its inception in the year 2000. The organization builds the capacity of basket weavers and also facilitates market access for their products. The Upper East Region only has one rainy season per year which means farmers are only able to crop once in a year. The farm harvest is often not enough to feed families throughout the year and so most families supplement their income with basket weaving. TradeAID therefore assist the basket weavers to market their baskets on fair trade terms. We also provide training on product development and proper business management. Over the years constructed seven craft centres to provide conducive working space for the basket weavers in some of the communities. The project currently works with 60 basket weavers groups scattered across 19 villages in and around Bolgatanga. The break down includes 2,385 women consisting of about 98% and the men 57 which is about 2%.

### **Our Baskets:**

The baskets are made from vertiver or elephants grass which grows in the wild. The baskets are designed in different forms and shapes to fit different functionality and purpose. All patterns and colors are decided by the weavers based on their traditional though customers' specifications are welcome. The baskets are available in various designs, patterns and colours

as show in the catalogue.

Our promise “Every basket purchase is a gift of livelihood”.

### **How to Order:**

Our catalogue makes ordering extremely straight forward. If you wish to purchase anything featured in the catalogue please follow the below steps:

Request for catalogue through our email [info@tradeaidgh.org](mailto:info@tradeaidgh.org)/[napokerah@tradeaidgh.org](mailto:napokerah@tradeaidgh.org)/[apokerah@gmail.com](mailto:apokerah@gmail.com). It can also be downloaded from website: [www.tradeaidgh.org](http://www.tradeaidgh.org).

Use the product code to identify items of your interest.

Make a list of the selected items and return the list of your selected baskets with any of the emails listed above. Please also state any customization that you may want on your baskets such basket size, colour or the size of its handles.

Once you have sent the emails we will get back to you with a proforma-invoice for your confirmation of the order.

Production only starts when payment is confirmed. The order is then passed on to the relevant craft group to manufacture and sent out to you once it has been produced.

Our pricing policy is Free on Board (FoB) which means that TradeAID does not take responsibility for shipment. Our prices do not cover shipment charges and customs charges incurred at importing country in respect of the shipment.

### **Production Led time:**

The entire basket weaving process is manual and completely handmade which makes it unique but also poses some challenges. In addition our basket weavers live rural areas in an

extended family setting and a lot of social relations and community common activities such funerals, community festival among others which often interrupted weaving. These pose challenges in our delivery timing. So we advise to customers to take the time we give as approximations. Expect some additional one or two week variation in production time. The general production lead time is stated below:

Sample production and Small orders: 45 days for samples and small orders up to 200 baskets subject to 100% payment.

Large orders: 90 days for orders over 1000 baskets and above. Subjected to payment of at least 50%

### **Delivery/Shipment:**

Delivery method will vary on a case by case basis according to the individual customer need. In general we are able to deliver through the under listed means. Customers must advise on their preferred delivery method.

Ghana post regular or EMS services or any other courier service available in Ghana. List available include; DHL, TNT, FedEx, and UPS. Delivery post could cost up 70% of the order value.

We also deliver by air cargo. This is suitable to orders small to medium orders ranging between 200 to 500 baskets. This can be very expensive

Delivery can also be by sea. This is suitable for large orders of 1000 plus baskets. This less expensive but may take more days for products to arrive at final destination
